

Preliminary Report

Done :

Data Collection from source dataset URL : <https://www.kaggle.com/new-york-city/ny-rodent-inspection>, Learning concepts of ARIMA and its implementations. Learning and implementation of POC for Location mapping on maps based on co-ordinates (Yet to decide on the tool to implement)

To Do:

Create SQL table and insert cleansed data into the sql for using it in the Machine learning Model. Learn ARIMA and perform POC on Timeseries to plot data. Create a GIT for version control over the code.
